

## Medecos XI

The International Mediterranean Ecosystems Conference  
2 to 5 September 2007 - Perth, Western Australia, Australia

---

### LIST OF EXTENDED ABSTRACTS (as published in the Conference Proceedings)

#### **Fire, drought and recruitment limitation explain arrested succession in Mediterranean cork oak systems**

*Vanda Acácio, Milena Holmgren, Patrick A Jansen, Francisco Moreira, Francisco Rego and Frits Mohren*

#### **Growth and survival in a mixed plantation of *Quercus ilex* and *Q humilis* under climatic change conditions**

*Xavier Aranda, Carolina Miguel, Carme Biel, M<sup>a</sup>. Del Mar Alsina, Robert Savé and Felicidad de Herralde*

#### **Resilience of Mediterranean vegetation to fire: Issues under the global change scenarios**

*Margarita Arianoutsou*

#### **Life history traits and habitat preferences of the alien plants in Greece**

*Margarita Arianoutsou, Yannis Kokkoris, Pavlos Andriopoulos, Ioannis Bazos, Andreas Zikos and Pinelopi Delipetrou*

#### **Applying seed germination studies in fire management for biodiversity conservation**

*Tony D Auld and Mark KJ Ooi*

#### **The use of remote sensing technologies to investigate severe woodland decline in Western Australia**

*Paul Barber, Graeme Behn, Drew Haswell, Frank Honey, Andrew Malcolm, Christine Stone, Bernie Dell and Giles Hardy*

#### **The severe and disturbing decline of an iconic Mediterranean ecosystem endemic to Western Australia**

*Paul Barber, Katinka Ruthrof, Robert Archibald, Graeme Behn, Neale Bougher, Barbara Bowen, Yanfei Cai, Michael Calver, Ian Colquhoun, Bernard Dell, Paul Drake, Brant Edwards, Harry Eslick, Trish Fleming, Ray Friend, John Harris, Drew Haswell, James Henson, Amanda Hewison, Nathalie Long, Andrew Malcolm, Lachie McCaw, Peter Scott, Christine Stone, Katherine Taylor, Kobus Wentzel and Giles Hardy*

#### **The risk of extinction resulting from disease caused by *Phytophthora cinnamomi* to threatened flora endemic to the Stirling Range National Park, Western Australia**

*Sarah Barrett, Bryan Shearer, Colin Crane and Anne Cochrane*

#### **Heathy Stringybark woodlands: A little studied mediterranean-type ecosystem in south-west Victoria**

*Tina Bell, Alan York and Tom Duff*

#### **Resilience of *Banksia* woodlands to *Phytophthora cinnamomi* in the Walpole Wilderness Area, WA**

*Carly Bishop, Grant Wardell-Johnson and Bryan Shearer*

#### **Habitat selection and conservation status of the poorly known Mediterranean endemic Yelkouan Shearwater**

*Karen Bourgeois, Eric Vidal, Jérôme Legrand, Sylvain Dromzée and Vincent Comor*

#### **Post-mining rehabilitation at the Ludlow tuart forest**

*Darren Brearley and Nicole Gregory*

#### **Science-based conservation and management of the Santa Monica Mountains of southern California**

*Christy Brigham, Raymond Sauvajot and John Tiszler*

**Community as currency: Local participation in the Fitzgerald Biosphere Reserve**

*Amma Buckley*

**Profiles of *ex situ* conservation in a Mediterranean ecosystem: Using *in vitro* and cryogenic methods for the Western Australian flora**

*E Bunn, SR Turner and KW Dixon*

**Impact of fragmentation on reproductive biology, mating system and pollen dispersal in two plant species from Mediterranean south-western Australia**

*Margaret Byrne, Colin Yates, Carole Elliott, Jane Sampson and David Coates*

**Effects of a *Pheidole megacephala* (Fabricius) (Hymenoptera: Formicidae) invasion of urban bushland in Perth, Western Australia**

*Shae Callan and Jonathan Majer*

**A simulation model to estimate the contribution of dispersers to seedling recruitment**

*María Calviño-Cancela and Julio Martín-Herrero*

**Vertebrate herbivores as alternative long distance dispersers of plants with short-range dispersal modes**

*María Calviño-Cancela, Ken Okamitsu and Byron B Lamont*

**Water stress vulnerability of four *Banksia* species in contrasting ecohydrological habitats on the Gnangara Mound, Western Australia**

*Caroline Canham, Ray Froend and Will Stock*

**Influence of time since last fire on geophyte abundance, diversity and composition in the jarrah forests of south-west Western Australia**

*Jeff Cargill, Neil Burrows, William Stock and Eddie van Etten*

**Post-fire effects of ungulates on the structure, abundance and diversity of vegetation in a Mediterranean ecosystem**

*Filipe Catry, Miguel Bugalho, Tito Lopes, Francisco Rego and Francisco Moreira*

**Post-fire tree mortality and regeneration in a mixed forest: Evaluating the cumulative impacts of herbivory**

*Filipe Catry, Francisco Rego, Miguel Bugalho, Tito Lopes, Joaquim Silva and Francisco Moreira*

**How to teach children about forests and agricultural ecosystems: 10 years of experience**

*M Conceição Colaço*

**Analysis of the pedagogical contents from the environmental education centres in Portugal**

*M Conceição Colaço, Mariana Carvalho and Helena Barracosa*

**Fire as a tool in rare flora conservation management for the critically endangered flora species, *Daviesia euphorbioides* (Wongan Cactus) in the Wheatbelt of Western Australia**

*Joel Collins and Gillian Stack*

**Towards a Weed Risk Assessment for the Italian peninsula: Preliminary validation of a scheme for the Central Mediterranean region in Italy**

*R Crosti, C Cascone and W Testa*

**Facilitation of a Mediterranean oak by a leguminous shrub: Evidence of indirect facilitation mediated by herbs**

*Bárbara Cuesta, Pedro Villar-Salvador, Jaime Puértolas and José María Rey Benayas*

**Wandoo decline: An ecophysiological and phylogeographical analysis**

*Eleftheria Dalmaris, Erik Veneklaas, Margaret Byrne and Pieter Poot*

**Postfire growth and reproductive dynamics in *Pinus halepensis* (Aleppo pine) forests of northern Euboea Island, Greece**

*Evangelia Daskalakou, Kosmas Albanis, Asimina Skouteri and Costas Thanos*

**Thresholds of habitat fragmentation for birds in a rapidly urbanising Mediterranean ecosystem, Perth, Western Australia**

*Robert A Davis, Lesley C Brooker and J Dale Roberts*

**Phenotypic plasticity in xylem cavitation resistance of California chaparral**

*Stephen D Davis, R Brandon Pratt, Anna L Jacobsen, Evin G Jerkins, Jay B Osborne, Nicholas R Rowan and Frank W Ewers*

**Observations of the effects of a dry and warmer climate on the main functional processes of Mediterranean shrubland in Sardinia (Italy)**

*Giovanbattista de Dato, Paolo De Angelis, Grazia Pellizzaro, Carla Cesaraccio, Costantino Sirca, Pierpaolo Duce, Donatella Spano and Giuseppe Scarascia Mugnozza*

**Establishment and evaluation of a planted area with Mediterranean shrubs in Sardinia for climate mitigation and to combat desertification**

*Giovanbattista de Dato, Paolo De Angelis and Riccardo Valentini*

**The impact of *Phytophthora cinnamomi* on ecosystem function and health of Mediterranean forests, woodlands and heathlands in Western Australia**

*Bernard Dell, Giles Hardy, Emer O'Gara and Bryan Shearer*

**Phytomass dynamics in the gaps of the low Macchia at "Castel Volturno" Nature Reserve, southern Italy**

*Anna De Marco, Angela Meola and Amalia Virzo De Santo*

**Spatial segregation and sexual dimorphism in the dioecious species *Corema album* across its biogeographical area**

*Mari Cruz Díaz-Barradas, Maria Zunzunegui, Fátima Ain-Lhout, Leonor Alvarez Cansino, Cristina Máguas, Francisco Garcia Novo and Otilia Correia*

**Managing translocation sites for rare species to achieve better long-term outcomes**

*Bob Dixon*

**Utilising adaptive management practices in the conservation of a Declared Rare *Acacia* species**

*P Dufty, M Garkaklis, PG Ladd and R Huston*

**The movers and the shakers: Invasive alien plant dispersal interactions with disturbances in arid environments**

*Karen J Esler and Suzanne J Milton*

**Photoprotective role of waxes in *Juniperus thurifera* trees**

*Raquel Esteban, Beatriz Fernández-Marin, Lucía de Soto, José Miguel Olano, José María Becerril and José Ignacio García-Plazaola*

**Conservation of biodiversity at gene level in Mediterranean ecosystems**

*Bruno Fady, Frédéric Medail, Katia Diadema and Cyrille Conord*

**Gnammas as rare wetlands in the southwest Australian Floristic Region**

*Peggy L Fiedler, Lyndon C Lee and Stephen D Hopper*

**One big game of hide and seek: Modelling species distribution of endemic eucalypts in the high rainfall Mediterranean-climate ecosystem of south-western Australia to anticipate the impacts of climate change**

*Joselyn Fissioli, Grant Wardell-Johnson, Kimberly Van Niel and Mike Austin*

**Photoprotective responses in *Quercus ilex* L. resprouting vegetation after fire: Involvement of polyamines**

*Isabel Fleck, Marta Pintó, Massimo Zacchini and Marina de Agazio*

**Synergy of water and nutrient availability on seedling ecophysiological performance during a summer drought period (LORAIN and ANRA projects)**

*David Fuentes, Alejandro Valdecantos, M Jaime Baeza, Joan Llovet, David Corell, José A Valiente, María J Estrela and V Ramón Vallejo*

**Long-term invasibility patterns in Mediterranean grasslands of varying initial diversities**

*Alexandros Galanidis, Panayiotis G Dimitrakopoulos and Andreas Y Troumbis*

**Do Mediterranean plants employ different photoprotective strategies in response to winter and summer stress?**

*Jose Ignacio García-Plazaola, Raquel Esteban and José María Becerril*

**A community-level test of the Leaf-Height-Seed ecology strategy scheme in a grazed Mediterranean grassland**

*Carly Golodets, Marcelo Sternberg and Jaime Kigel*

**Effect of two successive wildfires in *Pinus halepensis* Miller stands in Central Greece**

*Gerassimos Goudelis, Petros Ganatsas, Thekla Tsitsoni, Yannis Spanos and Evangelia Daskalidou*

**How does the quantity of coarse woody debris influence fauna return in restored bauxite mines? 101**

*Andrew Grigg, Michael Craig, Richard Hobbs, Mark Garkaklis, Carl Grant, Patricia Fleming and Giles StJ Hardy*

**Investigating the impact of plant traits on community structure in fire-prone woody vegetation using a model of 288 plant functional types**

*J Groeneveld, A Esther, N Enright, B Miller, B Lamont, G Perry and F Jeltsch*

**Ecophysiological responses to summer drought in a groundwater-dependent sandplain environment**

*Philip Groom*

**Adaptive significance of heterophylly in the two-leaf *Hakea***

*Philip Groom and Byron Lamont*

**Weed control trials in black vertosol soil at Folly Pool, Western Australia**

*Peter Grose*

**Floral defence and pollination systems in Western Australian *Hakea* species**

*Mick E Hanley and Byron B Lamont*

**Leaf traits and photosynthesis in sclerophyllous *Banksia* sp. – A comparative study of structure and function**

*Foteini Hassiotou, Martha Ludwig and Erik Veneklaas*

**The effect of prescribed burning on the leaf litter invertebrates of the jarrah forest, with special reference to Apocrita (Insecta: Hymenoptera)**

*Mark Heath, Phillip Ladd and Jenny Davis*

**Manipulated state transitions in a Mediterranean rangeland ecosystem**

*Zalmen Henkin, No'am G Seligman and Imanuel Noy-Meir*

**Root nodule bacteria of arid zone Mediterranean legumes for rehabilitation in a World Heritage Area**

*Yvette Hill, Graham O'Hara, Elizabeth Watkin and Kingsley Dixon*

**Restoration protocols for fynbos riparian vegetation following alien plant invasion**

*Patricia Holmes and Karen Esler*

**Landscape age, evolution and conservation of biodiversity in Mediterranean regions**

*Stephen D Hopper*

**Water relations in woody riparian species in South African fynbos rivers**

*Shayne Jacobs, Cheryl Swift, Karen Esler and Casper Crous*

**Non-convergence in water stress tolerance among shrubs in three arid plant communities of southern California**

*Anna L Jacobsen, R Brandon Pratt, Stephen D Davis and Frank W Ewers*

**The effects of temperature and rainfall on decomposition rates of *Eucalyptus oleosa* leaf litter in mallee-plain habitats at Danggali Conservation Park, South Australia**

*Michael Jervois and Joan Gibbs*

**Threats to Thrombolites in Lake Clifton, Mandurah, Western Australia**

*Jacob John and Jennifer Paton*

**A comparison of sampling methods to assess species composition and productivity in an herbaceous understory in cork oak woodlands**

*Marjan Jongen and João Santos-Pereira*

**Diversity and abundance of geophytes along post-fire chronosequences of *Pinus halepensis* forests in Greece**

*Dimitris Kazanis and Margarita Arianoutsou*

**Rational prioritization: Using return-on-investment analysis to inform conservation decision making at a regional scale**

*Kirk R Klausmeyer, Emma C Underwood, M Rebecca Shaw and Scott A Morrison*

**Incorporating ecological processes into continental scale conservation planning**

*Carissa Klein, Kerrie Wilson, Matthew Watts, Janet Stein, Sandra Berry, Brendan Mackey, Josie Carwardine and Hugh Possingham*

**Forty year development of plants, animals and soils in Alcoa's rehabilitated bauxite mines**

*John M Koch, Carl D Grant, Melanie A Norman and Andrew H Grigg*

**A model of Mediterranean vegetation dynamics and multiple benefits as a management tool**

*Gili Koniak, Imanuel Noy-Meir and Avi Perevolotsky*

**The evolution of grasstree growth phenology: Questioning the fit of an established theory for Australia's Mediterranean vegetation**

*Dylan Korczynskij*

**Small mammals in fragmented habitats: Individual population, species and community responses**

*Cornelia B Krug*

**The challenges of phosphorus acquisition in the Mediterranean environment in Western Australia**

*Hans Lambers, Michael W Shane and Erik J Veneklaas*

**An assessment of the impact of fire-suppressing agents on native vegetation in Western Australia**

*David R Leach, Deanna P Rokich and Kingsley W Dixon*

**Bush fire management in high organic soils on the Swan Coastal Plain**

*Jade Leask and Ralph Smith*

**Afforestation in Mediterranean ecosystems: Native plants and arthropods in semi-natural pine plantation habitats**

*Tal Levanony, Ehud Columbus, Yael Mandelik, Vladimir Chikatunov, Sergei Zonstein, Vasilij Kravchenko and Tamar Dayan*

**Historical and present extent of wetlands along the coastal plain of Israel and conservation implications**

*Noam Levin, Eldad Elron and Avital Gasith*

**Early vegetation development of rehabilitated bauxite mines in the eastern jarrah forests of southwest Western Australia**

*William Loneragan, Shiro Tsuyuzaki and Stephen Vlahos*

***Acacia longifolia* invasiveness on Portuguese coastal dune systems: Environmental and plant community changes**

*C Máguas, J Ferreira, A Pereira, A Martins-Loução, H Marchante, E Marchante, C Schreck, H Freitas, M Ramos, C Werner and O Correia*

**Conservation of nationally threatened *Macarthuria keigheryi* within an urban bushland**

*Giuseppe Messina, Dugald Close, Deanna Rokich and Kingsley Dixon*

**The role of fire on *Phytophthora dieback* caused by the root pathogen *Phytophthora cinnamomi* in the Stirling Range National Park, Western Australia**

*Nicole Moore, Sarah Barrett, Barbara Bowen, Bryan Shearer and Giles Hardy*

**Transforming the pace, scale, and effectiveness of conservation in Mediterranean systems: Preliminary recommendations from a pan-regional discussion**

*Scott A Morrison, M Rebecca Shaw, Robin Cox, Kirk R Klausmeyer, Emma C Underwood, Sylvia Busby and Bruce Boggs*

**Changes in the reproduction and growth of *Pinus halepensis* Mill. 10 years after great fires through a latitude gradient**

*Daniel Moya, M Eugenio, Francisco López-Serrano, Josep Espelta and Jorge de las Heras*

**Serotiny in the Mediterranean basin: Are *Pinus halepensis* Mill. cones really adapted to fire?**

*D Moya, R Salvatore, R Lovreglio, A Saracino, J de las Heras and V Leone*

**Evolution of flora and vegetation in saline habitats of South Africa**

*Ladislav Mucina, Gudrun Kadereit, Simone Steffen and Adriaan van Niekerk*

**Visual fuel load guides for non-forest fuel loads**

*Kathy Nastov, Jade Leask, David Lamont and Ralph Smith*

**Investigating the existence of assembly rules in coastal vegetation**

*Andrew Nield and Philip Ladd*

**Incorporating the concept of multi-functionality in regional environmental management and decision-making, using qualitative multi-criteria analysis: The case of Natura 2000 Kalloni's wetland site on Lesbos Island, Greece**

*Varvara Oikonomou and Panayiotis G Dimitrakopoulos*

**Restoration of southern California ecosystems: A focus on ecological process and landscape level reserve planning**

*David Olson, Megan Lulow, Lindsay Kircher, Tom Allnut and Michael O'Connell*

**Wind erosion and invertebrate activity on broadcast seed removal in *Banksia* woodland restoration, Western Australia**

*Rachael Ord, Deanna Rokich, Shane Turner and Julie Plummer*

**Identification of good quality, viable seeds: An essential step towards induction of somatic embryogenesis of a sedge species important for land rehabilitation**

*M Panaia, E Bunn and J McComb*

**Different responses to water stress of the invasive *Acacia longifolia* versus native Mediterranean dune species**

*Ana Julia Pereira, Otilia Correia, Margarida Ramos, Christiane Werner and Cristina Máguas*

**Conserving Mediterranean ecosystems: The lesson from a 20 year project at the Ramat Hanadiv Park in Israel**

*Avi Perevolotsky*

**Aspects of reproductive biology of the Greek fir (*Abies cephalonica* L.) in the Mt. Aenos National Park (Greece)**

*Patrizia Iossifina Politi, Margarita Arianoutsou and Kyriakos Georghiou*

**Seasonal water relations in four co-occurring eucalypt species in southwestern Australia**

*Pieter Poot and Erik Veneklaas*

**Physiology and life history types in Rhamnaceae seedlings of the California chaparral**

*R Brandon Pratt, Ruchika Mohla, Anna Jacobsen, Frank Ewers and Stephen Davis*

**Results from a trial of European olive (*Olea europaea* L.) on Mount Weld Pastoral Station, Western Australia**

*Gary Price*

**Recovery actions for a threatened ecological community in the south-west of Western Australia**

*Jill Pryde*

**Selective herbivory by western grey kangaroos following fire at Whiteman Park Reserve, Perth, Western Australia: Assessment of impact and methods of minimising damage upon regenerating flora**

*Christine Rafferty and Byron B Lamont*

**Is sclerophylly the same phenomenon in shrublands in contrasting environments? Kwongan in Western Australia and maquis in New Caledonia**

*Jennifer Read, Byron Lamont, Gordon Sanson, Michel de Garine-Wichatitsky and Tanguy Jaffré*

**Cape Town: A biodiversity megadisaster**

*Anthony Rebelo, Patricia Holmes and Julia Wood*

**Life at the margins: The mating system of Mediterranean conifers**

*Gwendal Restoux, Daniel E Silva, Fabrice Sagnard, Etienne Klein and Bruno Fady*

**Vineyards as threats, vineyards as partners in conservation of Mediterranean systems**

*Mark Reynolds, Kim Cahill, Jennifer Carah and Gretchen LeBuhn*

**The role of the Australian Wildlife Conservancy in the conservation of threatened species in Australia**

*Jacqueline D Richards*

**Analysis of Regional Natural Resource Management decision making of biodiversity conservation activity in Western Australia**

*Neil Riches*

**Development of root nodule bacteria inoculant for *Acacia acuminata* as a host for *Santalum spicatum* plantations**

*Sacha Ruoss, Liz Barbour, John Fox, Lesley Mutch and Elizabeth Watkin*

**Establishing the mycorrhizal status of native Fabaceae**

*Megan H Ryan, Susan Barker, Yinglong Chen, Matthew D Denton, Tamara Edmonds-Tibbett, Mark Tibbett and Christopher Walker*

**Thermal treatments and germination response over time of seeds from serotinous and non serotinous cones of *Pinus halepensis* Mill in the south of Italy**

*R Salvatore, R Lovreglio, P Giaquinta, D Moya, J de Las Heras and V Leone*

**Pollen dispersal between planted populations and remnant native populations in a fragmented agricultural landscape**

*Jane Sampson, Melissa A Millar and Margaret Byrne*

**Deriving a climatic classification of high-rainfall Mediterranean ecosystems**

*Juliane Sander, Grant Wardell-Johnson and David Pullar*

**Monitoring restoration progress of a landscape designed to achieve completion criteria on the Scott Coastal Plain, Western Australia**

*Sandra Santich and Kathy Meney*

**Perennial grasses from different Mediterranean climate zones show contrasting adaptations to drought stress**

*R Savé, C Biel, JJ Clary, F de Herralde, W Roberts, X Aranda, R Evans, K Vaughn and T Young*

**Vegetation structure and cattle behavior in a Mediterranean oak woodland**

*Iris Schoenbaum, Zalmen Henkin, Jaime Kigel, Eugene D Ungar and Amit Dolev*

**Impact of mining exploration on ecosystem characters and mallee vegetation of Pinkawillinie Conservation Park, South Australia**

*Lindy A Scott and José M Facelli*

**The potential role of a *Phytophthora* species in *Eucalyptus gomphocephala* (tuart) decline in southwest Western Australia**

*Peter Scott, Paul Barber, Treena Burgess, Bryan Shearer, Ian Colquhoun, Thomas Jung and Giles Hardy*

**Phosphite application as an explorative tool for understanding and controlling *Eucalyptus gomphocephala* (tuart) decline in southwest Western Australia**

*Peter Scott, Harry Eslick, Paul Barber, Mike Calver, Bryan Shearer, Ian Colquhoun and Giles Hardy*

**Seeking conservation outcomes through novel collaborations: Ecosystem services in Mediterranean-type ecosystems**

*M Rebecca Shaw, Dick Cameron, Robin Cox, Holly Davis, Kirk R Klausmeyer, Scott Morrison, Mark Reynolds and Emma C Underwood*

**Mapping of floristic associations using probabilistic spatial classification in the Walpole Wilderness Area, south-western Australia**

*Paul Smith, Grant Wardell-Johnson, David Pullar and Carl Smith*

**Kimberley bush fire management**

*Ralph Smith, Jade Leask and David Lamont*

**Dormancy of *Pyrorchis nigricans* is overcome by after-ripening and warm stratification**

*Jessica Soanes, David Merritt, Kingsley Dixon, Andrew Batty and Stephen Hopper*

**Complexities in governance: Social sciences and eco system planning**

*Daniela Stehlik*

**Progress and challenges of managing fire in the wildland-urban intermix of the Santa Monica Mountains National Recreation Area, Los Angeles, California**

*Robert Taylor, Marti Witter, John Tiszler and Ray Sauvajot*

**The establishment, monitoring and management of a pilot network of micro-reserves in Western Crete for the conservation of European threatened plants (CRETAPLANT Project, EU-LIFE)**

*Costas A Thanos, Chistini Fournaraki, Kyriacos Georghiou, Panayotis Dimopoulos and Erwin Bergmeier*

**Seed ecology of *Hydatella*, *Trithuria* and *Glossostigma* as representatives of vernal pool plants in Western Australia**  
R Tuckett, D Merritt, K Dixon, F Hay and S Hopper

**A conservation assessment of the Mediterranean biome: Threats, trends and gaps**  
*Emma C Underwood, Robin L Cox, M Rebecca Shaw, K R Klausmeyer and Scott A Morrison*

**Carbon-flux partitioning of ecosystem respiration in a Mediterranean oak forest in response to drought**  
*Stephan Unger, João Santos-Pereira, Cristina Mâguas and Christiane Werner*

**Morphological and physiological changes in *Pinus halepensis* after sewage sludge application - A field and laboratory study**  
*Alejandro Valdecantos, David Fuentes and V Ramón Vallejo*

**The productive system of the mastic tree (*Pistacia lentiscus* var. *chia*) as a landscape driver in south of Chios Island, Greece**  
*Georgios K Vasios and Panayiotis G Dimitrakopoulos*

**Leaf area index, leaf longevity and growth phenology as factors in the seasonality of transpiration of SW Australian sclerophyllous shrublands, woodlands and forests**  
*Erik Veneklaas*

**The life history and germination ecology of *Stachystemon vinosus* (Euphorbiaceae)**  
*Brian Vincent, Julie Plummer and Anne Cochrane*

**Biodiversity conservation: Towards a landscape intelligence**  
*Grant Wardell-Johnson, David Pullar, Carl Smith and Angela Wardell-Johnson*

**Managing biodiversity at a landscape scale in the Avon River Basin of Western Australia – The Ecoscapes Project**  
*Margaret Wheeler, Brett Beecham, Terry Walshe, Murray Penter and Alan Kietzmann*

**Biomass estimation of a *Banksia-Eucalypt-Melaleuca* woodland on the Swan Coastal Plain**  
*P Whipple, R Bell and PG Ladd*

**Butterflies in remnant bushland: Factors affecting species richness**  
*Matthew Williams and Byron Lamont*

**Influence of rainfall on native mammal populations in southeastern Australia**  
*Barbara A Wilson, Mandy Lock and Rannveig Magnúsdóttir*

**Studying fire regimes and biodiversity in southwestern Australia for improved land management**  
*Roy Wittkuhn and Lachie McCaw*
